Subject: EPA access to Haystack mine

Hello Ryan and Simone,

I am writing to request BIA consent for us to access the Biba Trespass mine which is subject to PLO 2198. This mine is located in SE ¼ Section 13, T13N, R11W. In the coming weeks we intend to visit the property - no field work will be conducted at this time. During the same time,

we will also visit adjacent mines on allotted land and are coordinating with Mr. Lester Tsosie about access to those sites.

Please let me know if you have any questions.

Linda
